

### **Information on 3<sup>rd</sup> Distribution**

After all payments in the first and in the second distribution were launched in respectively November 2011 and July 2012 some additional corrections were made to eliminate claims withdrawn by the filing nominees and individual claimants after the calculations for the second distribution were made. These corrections resulted up to 30 June 2013 in non distributed funds of approximately USD 1.6 million, being less than 0,5% of the total available amount for distribution. The Stichting Shell Reserves Compensation Foundation has, after due consideration and after taking advice from the Claims Administrator, resolved that the remaining funds shall be distributed in a third and final distribution in accordance with the Settlement Agreement and the Settlement Distribution Plan. In order to be eligible for an award in the third distribution the calculated net receipt in the third distribution should amount to at least USD 10 as stipulated in the Settlement Distribution Plan. Taking into account bank and other distribution charges the pro-rated gross award amount will therefore be calculated at a minimum award of USD 25.00. Approximately 4,600 claims will be awarded a payment in the third distribution.

The third distribution of the Royal Dutch Shell Non-US Shareholders Litigation is scheduled to occur in third quarter of 2013. If you have any questions about your claim or award you may contact the Claims Administrator.

Amounts related to uncashed checks issued in the first, second and third distribution will be transferred to the Netherlands Consignatiekas in September 2013.
